CC=Core Course, **AECC**=Ability Enhancement Compulsory Course, **GE**=Generic Elective, **SEC** =Skill Enhancement Course, **DSE**=Discipline Specific Elective, **CA**= Continuous Assessment, **ESE**=End Semester Examination, **T**=Theory, **L** =Lecture, **T** =Tutorial, **P**=Practical, **MIL** =Modern Indian Language, **ENVS** =Environmental Studies

[Note: In Semester V & Semester VI DSE subjects should be chosen from any one Discipline

List of Core courses (CC) and Electives

Core Course (CC)

BBACC1T	: Fundamentals of Management and Organizational Behaviour
BBACC2T	: Financial Accounting
BBACC3T	: Managerial Economics
BBACC4T	: Statistics for Business Decision
BBACC5T	: Marketing Management
BBACC6T	: Cost and Management accounting
BBACC7T	: Production and Operations Management
BBACC8T	: Financial Management
BBACC9T	: Research Methodology
BBACC10T	: Human Resource Management
BBACC11T	: Fundamentals of Business Analytics
BBACC 12T	: Business Law
BBACC13T	: Digital Marketing
BBACC14T	: Business Strategy & Policy

Discipline Specific Electives (DSE)

BBADSE1.1T	: Commercial Banking.
Or	
BBADSE1.2T	: Human Resource Planning and Development
Or	
BBA DSE1.3T	: Consumer Behaviour
BBADSE2.1T	: Financial Institution and Markets
Or	
BBADSE2.2T	: Industrial Relations
Or	
BBADSE2.3T	: Advertising and Brand Management
BBADSE3.1T	: Investment analysis and portfolio management
Or	
BBADSE3.2T	: HRM in knowledge Era
Or	
BBADSE3.3 T	: Marketing of services
BBADSE4 (P)	: Internship/ Industrial Visit

Skill Enhancement Course (SEC)

BBASEC1.1T	: Business Communication
Or	
BBASEC1.2T	: E-Commerce
BBASEC2.1 T	: Income Tax
Or	
BBASEC2.2 T	: IT Tools for Business

Generic Electives (GE)

- BBAGE1T** : Mathematics for Business Decisions
- BBAGE2T** : Computer Fundamentals and Applications
- BBAGE2P** : Computer Fundamentals and Applications (Practical)
- BBAGE3T** : Business Ethics and Corporate Social Responsibility
- BBAGE4T** : Entrepreneurship development
- BBAGE4P** : Entrepreneurship development (Business Plan)

Ability Enhancement Compulsory Course (AECC)

- BBAAECCT** : Communicative English
- BBAENVST** : Environmental Studies

Core Course (CC)

BBACC1: Fundamentals of Management and Organizational Behaviour Credits 06

BBA CC1T: Fundamentals of Management and Organizational Behaviour

Course contents:

Unit-I: Introduction: Definition, nature and scope of Management, Management as science and art, Evolution of Management Theory, Contribution of F.W. Taylor, Henry Fayol and Elton Mayo, Managerial functions and Roles, Qualities of a good manager.

Unit-II: Overview of Planning: Types of Plans & The planning process; Decision making: Process, Types and Techniques. Principles of organizing: Common organizational structures; Delegation & Decentralization: Factors affecting the extent of decentralization, Process and Principles of delegation, Control: Function, Process and types of Control.

Unit-III: Importance of organizational Behaviour, Perception and Attribution: Concept, Nature, Process, Personality: Concept, Various Theories of Personality (Big Five Factor Model, MBTI Model) Learning: Concept and Theories of Learning, reinforcement, Motivation: Concepts and their application, Content theories, Contemporary Leadership issues: Charismatic, Transformational Leadership, Servant leadership, Emotional Intelligence

Unit-IV: Groups and Teams: Definition, Difference between Groups and teams; Stages of Group Development, Group Cohesiveness, Types of teams. Conflict: Concept, Sources, Types, Stages of conflict, Management of conflict, Organizational Change: Concept, Resistance to change, Managing resistance to change, Implementing Change, Kurt Lewin Theory of Change, Managing Stress

Suggested Readings :

1. Koontz & Heinz Wehrich: Essential of Management, McGraw Hill.
2. Luthans Fred: Organizational Behaviour, Tata McGraw Hill.
3. Richard L. Daft: Principles of Management, Cengage Learning India.
4. Robbins Stephen P: Organizational Behaviour, Pearson.
5. Stephen P. Robbins & Mary Coulter: Management, Pearson.
6. Stoner & Wankel: Management, Prentice Hall of India.
7. Chitale A. K. , Mohanty R. P., Dubey N. R.: Organizational Behaviour: Text and Cases, Prentice Hall of India.

BBA CC2 - Financial Accounting**Credits 06****BBA CC2T - Financial Accounting****Full Marks: 75****Course contents:**

Unit-I: Meaning and scope of Accounting, Definition, need and development of accounting; Accounting Principles: GAAP, Accounting transaction, accounting equation

Unit-II: Journals entries, various types of journals, Ledger posting, Trial Balance: Errors not detected by trial balance

Unit-III: Depreciation and Provision: Concepts of depreciation; Methods of depreciation: Straight Line method and diminishing methods. Provision and reserves: preparation of provision and doubtful debt account.

Unit-IV: Bank Reconciliation statement

Unit-V:- Final account, Manufacturing account; trading account; profit and loss account; balance sheet; adjustment entries

Suggested Readings:

1. Modern accountancy Vol-1 – Hanif and Mukherjee, Publisher-Tata Macgrawhill
2. Practice in accountancy Vol-1 –Basu and Das, Publisher- Rabindra Library
3. Financial Accounting- Partha Chatterjee, Publisher- Himalaya Publishing house

BBA CC3: Managerial Economics**Credits 06****BBA CC3T: Managerial Economics****Full Marks: 75**

This course is designed to provide the students with the fundamental knowledge about micro and macroeconomic concepts and theories that are commonly applied to facilitate various commercial decision-making processes for the company managers and administrators.

Learning Objectives:

- To understand key microeconomic concepts to understand consumers, production, and markets.
- To understand the different types of market and their characteristics.
- To understand macroeconomic business environment particularly related to India.

Course contents:

Unit-I: Economic terms and basic concepts, Economic Problems(Problem of Scarcity, Problem of Choice, Problem of Efficiency),Production Possibility Frontier, Definition of Managerial Economics,

Nature and Scope of Managerial Economics, Comparison/relationship between Managerial Economics and other allied subjects such as Mathematics, Statistics, Accounting, and Management.

Unit-II: Demand, Supply and Market equilibrium: individual Demand, market demand, individual supply, market supply, market equilibrium, Elasticities of demand and supply: Price elasticity of demand, income elasticity of demand, cross price elasticity of demand, Factors determining demand elasticity, elasticity of supply, Theory of consumer behavior: cardinal utility theory, ordinal utility theory (Consumer Equilibrium based on indifference curve and budget line).

Unit-III: Production function and its characteristics, Law of variable proportion, Concepts of Total Product (TP), Average Product (AP), and Marginal Product (MP), Relationship between TP, AP, and MP, Producer optimization in short run (TP, AP, and MP curves, law of diminishing marginal productivity, three stages of production), Producer optimization in long run (Isoquant, Isocost line, Profit Maximization with Isoquant and Isocost line), Costs and scale: traditional theory of cost (short run and long run, geometry of cost curves, envelope curves), Modern theory of cost (short run and long run), Economies of scale, Economies of scope, Theory of firm and market organization: Perfect Competition (basic features, short run equilibrium of firm/industry, long run equilibrium of firm/industry), Monopoly (basic features, short run equilibrium, long run equilibrium, comparison with perfect competition), Price discrimination, Monopolistic Competition (basic features and long run equilibrium), Basic concept of Oligopoly market.

Unit-IV: Concept and Importance of Business Environment, Basic concepts of Macroeconomics and their relevance with managerial decision making, National Income; Measurement of National Income and GDP, Circular flow of National Income, Monetary and Fiscal Policy, Industrial Licensing, Privatization, Objectives of NITI AYOJ, Foreign investment regulation, Export-Import policy, Future trends in Managerial Economics in the context of Indian economy.

Suggested Readings:

1. Dominick Salvatore (2009). Principles of Microeconomics (5th ed.) Oxford University Press
2. Lipsey and Chrystal. (2008). Economics. (11th ed.) Oxford University Press
3. Koutosyannis (1979). Modern Micro Economics. Palgrave Macmillan
4. Pindyck, Rubinfeld and Mehta. (2009). Micro Economics. (7th ed.). Pearson.
5. Dutt R and Sundharam KPM: Indian Economy, S.Chand
6. Vinita Agarwal: Managerial Economics, Pearson.
7. P. Chidambaram: Business Environment, Vikas Publishing
8. Sampat Mukherjee: Business and Managerial Economics, NCBA

BBACC4: Statistics for Business Decision

Credits 06

BBACC4T: Statistics for Business Decision

Full Marks: 75

The course aim is to familiarize students with Statistical concepts for solving business related problems. The course will give a foundation for study in Management, Economics, Accounting, Marketing and Finance.

Learning Objectives

- To enable the use of statistical, graphical and analytical techniques in the field of management.
- To get an understanding of the techniques of statistical analysis of time-series and cross-section data.

Unit I: Introduction to Statistics : Introduction- Statistics as a subject; Functions, Importance and Limitations of Statistics; Planning and Execution of a statistical investigation; Census and sample investigation, Collection, Editing and Presentation of Data - Collection, Editing and Presentation of Data- Primary data and secondary data; Methods of collection; Scrutiny of data. Presentation of data: textual and tabular presentations; Construction of a table and the different components of a table. Diagrammatic representation of data, Frequency Distributions- Attribute and variable; Frequency distribution of an attribute; Discrete and continuous variables; Frequency distributions of discrete and continuous variables; Bivariate and Multivariate Frequency Distributions. Diagrammatic representation of a frequency distribution: case of an attribute; case of a discrete variable: column diagram, frequency polygon and step diagram; case of a continuous variable: histogram and ogive

UNIT II: Measures of Central Tendency & Measures of Dispersion : Mean – Definition and utility; Characteristics of a good average; Different measures, Positional Average- Median; Other positional measures – quartiles, deciles, percentiles, Measures of Dispersions- Meaning and objective of dispersion; Characteristics of a good measure of dispersion; Different measures of dispersion – Range, Quartile deviation, Mean deviation, Mean Absolute deviation, Standard deviation; Comparison of the different measures of dispersion. Measures, Moments- Moments: Raw Moments and Central Moments, their relation.

UNIT III: Correlation and Regression & Index Number: Analysis of Bivariate data, Correlation Analysis & interpreting business data- Meaning of correlation; Scatter Diagram; Karl Pearson's coefficient of linear correlation; Calculation of the correlation coefficient from grouped data; Properties of the correlation coefficient; Advantages and limitations of the coefficient of correlation; Idea of rank correlation; Spearman's rank correlation coefficient. Application in Business. Regression Analysis- Two lines of regression; Some important results relating to regression lines; Correlation Coefficient and the two Regression Coefficients; Coefficient of determination; Concept of Regression Analysis. Regression vs correlation. Interpretation of correlation, Index Numbers- Definition, characteristic and uses of index numbers; Methods of constructing price and quantity indices (simple and aggregate); Value index; Comparison of Laspeyres' and Paasche's Index Numbers; Tests of adequacy; Chain-base index numbers; Consumer Price Index Numbers; Problems in the construction of index numbers. Cost of Living Index, Concept of Purchasing power.

UNIT IV: Analysis of Time Series & Probability Theory: Time Series- Causes of variations in time series data; Components of a time series; Decomposition-Additive and Multiplicative Models; Determination of trend Moving averages method and method of least squares; Measurement of secular trend; Seasonal variations; Measurement of cyclical variations; Measurement of random variation. Application in business. Probability Theory- Probability Theory: Basic Concepts; Classical and Frequency Definition of Probability and Their Limitations; conditional Probability and Statistical Independence; Bayes' Theorem, Probability Distributions Probability distribution of a Random Variable: Discrete and Continuous random variables; Expectation value; Mean and Variance of a Random Variable;

Suggested Readings:

1. R.I. Levin & D.S. Rubin: Statistics for Management: Pearson Education
2. Amir D. Aczel & Jayavel Sounderandian–Complete Business Statistics: Tata McGraw-Hill
3. Dr, S.N. Dey Chhaya Prakashani pvt. Ltd
4. SP Gupta & M. P. Gupta: Business Statistics: Sultan Chand & Sons
5. V.K. Kapoor Sultan Chand & Sons
6. A.M Goon, M. K Gupta & B, Dasgupta: Basic Statistics: World Press.
7. N.G. Das Vol -I & II McGraw Hill
8. Anderson, Sweeney and Williams–Statistics for Business and Economics, West Publishers
9. J. K. Sharma; Trinity Publication
10. J. Chakraborty

BBA- CC5: Marketing Management

Credits 06

BBA- CC5T: Marketing Management

Full Marks: 75

Course contents:

Unit-I: Introduction: Nature, Scope and Significance of Marketing, Evolution of Marketing; Marketing concepts- Production concept, Product concept, Selling concept, Marketing concept, Holistic marketing concept, Comparison between Relationship Marketing and Transactional Marketing, Marketing and Selling.

Unit-II: Marketing Environment: economic, political, legal, socio cultural, technological and environmental

Unit-III: Segmentation, Targeting and Positioning: Levels of Market Segmentation, Basis for Segmenting Consumer Markets, Conceptual discussion on Segmentation, Targeting and Positioning;

Unit-III: Marketing Mix decisions: Elements of marketing mix, Product mix outlines, Concept of Product Life Cycle (PLC), New Product Development steps

Unit-IV: Pricing Decisions: Determinants of Price, Various pricing strategies in brief (Skimming and Penetration Pricing, Cost-plus Pricing, Promotional Pricing, Psychological and Differential Pricing).

Unit-V: Promotion Mix: Factors determining promotion mix, Promotional Tools – basics of Advertisement, Sales Promotion, Public Relations & Publicity and Personal Selling;

Unit-VI: Place (Channels of distribution): Channel functions, Channel Levels, Types of Intermediaries: Types of Retailers, Types of Wholesalers, Digital channels

Unit-VII: Marketing of Services - Unique Characteristics of Services, Marketing strategies for service firms – 7Ps.

Suggested Readings:

1. Kotler, P. & Keller, K. L.: Marketing Management, Pearson.
2. Kotler, P., Armstrong, G., Agnihotri, P. Y., & Ul Haq, E.: Principles of Marketing;

A South Asian Perspective, Pearson.

3. Ramaswamy, V.S. & Namakumari, S.: Marketing Management: Global Perspective-Indian Context, Macmillan Publishers India Limited.

4. Zikmund, W.G. & D' Amico, M.: Marketing, Ohio: South-Western College Publishing.

BBACC6: Cost and Management accounting

Credits 06

BBACC6T: Cost and Management accounting

Full Marks: 75

Course contents:

Unit I- Introduction

Nature and scope of cost accounting; Cost centre, Financial accounting and cost accounting; Advantages and limitation of cost accounting; methods of costing, technique of costing

Unit II: Elements of cost sheet, Cost accounting standard-1 (CAS-I)

Unit III: Accounting for materials:

Economic order quantity, ABC Analysis: Concepts of periodic inventory & perpetual inventory, Various stock levels, JIT Inventory, LIFO, FIFO, weighted average

Unit IV: Accounting for labour

Introduction:-recruitment of workers and retrenchment of workers; Labour cost control procedure; Labour turnover; idle time and overtime

Unit V: Accounting for overheads

Overhead define; different names of overhead Absorption, allocation and apportionment of overheads: Determination of overhead rates; under and over absorption and its treatment, primary and secondary distribution of overhead

Suggested Readings:

1. Cost & management account- Basu & Das, Publisher – Rabindra Library
2. Cost Accounting- Bhabatosh Banerjee, Publisher- Prentice hall India
3. Cost and management 8th edition–M N Arora, Publisher – Vikas publishing house

BBACC7: Production and Operations Management

Credits 06

BBACC7T: Production and Operations Management

Full Marks: 75

Course Content:

Unit I: Introduction: Production as an Organization Function – Definition Nature and Types of Production: Project Production, Jobbing Production, Batch Production, Mass and Flow Production, Process Production, Production Planning and Control.

Unit II: Plant Location and Layout: Approaches to location, choice, selection. Plant design; plant layout – product layout, process layout, criteria for a good layout.

Unit III: Plant Maintenance and Materials Handling : Types of maintenance – preventive, predictive and overhaul; selection of good materials handling equipment – gravity and powered conveyors, hoists and cranes, lifting trucks, motor transport.

Unit IV: Inspection and Quality Control: Types and criteria of inspection; significance of quality control, statistical quality control, control charts, acceptance sampling plan

Unit V: Stores Management: Stores system and procedures; stores accounting and stock verification; disposal of surplus and scrap; Inventory Control - Economic Ordering Quantity; inventory systems.

Unit VI: Work and Method Study: Work Study - Introduction, Definition, Concept, Objectives, Advantages, and Basic Procedure - Method Study: Objective, Factor and Procedure - Motion Study - Time Study - Work Measurement - Work sampling - Ratio-Delay Method.

Suggested Reading:

1. Chary, S. N., Production and Operations Management, Tata McGraw-Hill
2. Adam, Production and Operations Management, Pearson Education/ PHI
3. Nair, N. G., Production and Operations Management, Tata McGraw Hill
4. Panneerselvam, Production and Operation Management, PHI
5. Bedi, Production and Operations Management, Oxford University Press
6. Chase, R. B. and Aquilano, N. J., Production and Operations Management, Irwin
7. Aswathappa, K., Bhat, K.S., Production And Operations Management, Himalaya Publishing House Pvt. Ltd.

BBACC8: Financial management

Credits 06

BBACC8T: Financial management

Full Marks: 75

The course is aimed at giving students an understanding basic financial management concepts and tools of analysis so that they can take informed decision about financial investment, capital structure, working capital and dividend pay-out.

Learning objective:

- Analyse financial statements using standard financial ratios of liquidity, activity, debt, profitability, and market value.
- Identify the major sources of short-term financing available to the firm.
- Apply future value and present value concepts to single sums, mixed streams, and annuities.
- Apply time value, risk, and return concepts. Apply valuation techniques to bonds.
- Identify relevant cash flows for capital budgeting projects and apply various methods to analyse projects.

Course Contents

Unit-I:

Nature and objective of Financial Management:

Finance and related disciplines; Scope of Financial Management; Profit Maximization, Wealth Maximization - Traditional and Modern Approach; Functions of finance – Finance Decision, Investment Decision, Dividend Decision; Organisation of finance function; Concept of Time Value of Money, present value, future value, and annuity; Risk & Return: Historical return, expected return, absolute return, holding period return, annualized return, Risk - Systematic & unsystematic risk – their sources and measures.

Long -term and short-term investment decisions: Capital Budgeting - Principles and Techniques; Nature and meaning of capital budgeting; Time Value of money, Estimation of relevant cash flows and terminal value; Evaluation techniques - Accounting Rate of Return, Net Present Value, Internal Rate of Return & MIRR, Net Terminal Value, Profitability Index Method.

Sources of finance and cost of capital: short-term and long-term source of finance. EBIT-EPS Analysis.

Unit – II- Concept and Measurement of Cost of Capital:

Explicit and Implicit costs; Measurement of cost of capital; Cost of debt; Cost of perpetual debt; Cost of Equity Share; Cost of Preference Share; Cost of Retained Earning; Computation of over-all cost of capital based on Historical and Market weights. Classification of Cost of Capital Concept –Determinants of Cost of Capital. Weighted Average Cost of Capital - Leverage- Concept –Types of Leverage, Implications.

Unit-III:

Capital Structure decisions: theories of capital structure, optimum capital structure; Leverage: operating, financial and combined. Lease financing.

Working Capital Decision: Working Capital determinants, Concept, Components of Working Capital, Determinants of Working Capital, Working Capital Cycle-Estimation of Working Capital Requirement (problems)-An overview of Inventory Management -Receivables Management - Cash Management (Theory Only).

Unit – IV: Dividend Decision:

Dividend- Meaning- Major forms of Dividends – Cash Shares and Bonus Shares – Factors affecting Dividend Policy- Dividends Relevance and Irrelevance Models - Walter and Gordon's models-MM Approach (problems).

Suggested Reading:

1. Ravi M. Kishore, Financial Management, Taxman Publications.
2. Khan and Jain, Financial Management, Tata Mc Graw-Hill.
3. S.N. Maheshwari, Fundamentals of Financial Management- Sultan Chand Publications.
4. I.M.Pandey, Financial Management, Vikas Publishers.
5. Prasanna Chandra, Financial Management Theory and Practice, Tata McGraw- Hill.
6. V.K.Bhalla, Working Capital Management, Text and Cases, sixth edition, Anmol publications
7. Rajni Sofat&Preeti Hiro, Strategic Financial Management, Phi, Delhi, 2011.
8. Weaver & Weston, Strategic Corporate Finance, Cengage Learning, Delhi, 2001.

BBACC9: Research Methodology**Credits 06****BBACC9T: Research Methodology****Full Marks: 75**

The course aims to develop in the students a research orientation which they are expected to possess when they enter the industry as practitioners. The course will also give an exposure to the emerging areas in the management profession.

Learning Objectives

- To develop an understanding of the basic techniques and tools of business research.
- To understand the various techniques of conducting primary and secondary research
- To get an exposure to the conventions of report writing and presentations

Course Contents

Unit I: Introduction -Data and Information, Validity and Reliability, Methods-Deduction and Induction, Quantitative and Qualitative Methods, Types of Research-Exploratory, Descriptive, Causal, Research Design-Secondary Data Research: Advantages & Disadvantages of Secondary Data, Criteria for evaluating secondary sources, secondary sources of data in Indian Context, Methodology-Methodology, Timeframe.

Unit II: Survey Methods- Survey Design– Sampling, Qualitative Data, Quantitative Data, Scaling-Scaling Technique, Types of Methods- Interview Method, Observational Method, Focus Group, Questionnaires-Preparation of Questionnaires, Case Study-Case Studies, Documentary Sources

Unit III: Data Analysis- Presentation of Research Data, Frequency Distributions, Bar Charts, Histograms, Pareto Charts, Report Writing- Writing a Research Proposal–Objective Formatting, Title Page, Abstract, Body, Introduction, Methods, Sample, Measures, Design, Results, Conclusions, References, Tables, Figures, Appendices, Statistical Tools of Data Analysis-Mean, Median, Mode, Correlation, Regression, Qualitative Analysis-Research Process, Problem formulation.

Unit IV: Presentation of Report- Skills and Methods, Practice Session-Practice Sessions on Assignments (Two per student)

Suggested Readings:

1. Taylor, Bill, Sinha, GandGhoshal, Taposh: ResearchMethodology, PrenticeHall ofIndia.
2. Trochim, W.M.K.: Research Methods, Biztantra
3. D.K. Bhattacharjee: Research Methodology, Excel Books
4. Kumar ,M.S. & Prakash ,M.: Project Work–Guidelines, Himalaya
5. Kothari, C.R.: Research Methodology – Methods and Techniques, Wiley Eastern.
6. Sadhu, A.N. & Singh, A: Research Methodology for Social Sciences, Sterling.
7. R. Panneerselvam: Research Methodology
8. Ranjit Kumar: Research Methodology
9. U Sekaran: Research Methodology

BBACC10: Human Resource Management**Credits 06****BBACC10T: Human Resource Management****Full Marks: 75**

The course aims to give an understanding the various aspects of Human resource management and to learn how to implement it in the context of Business Scenario.

Learning Objective

- Understand the process of recruitment and training & development
- Get an overview of compensation and performance appraisal
- Understand the issues of Industrial Relations

Course Contents**Unit I: Introduction to Human Resource Management and Planning:**

Human Resource Management –Meaning, objectives and Importance, Role & Functions of Human Resource Managers, Difference Between HRM and Personnel Management , Knowledge , skills and Ability (KSA) - Model , Competitive Advantage through HRM .

Human Resources Planning – Concept, Objectives - Process -Manpower Estimation – Human Resource Information System (HRIS), Succession planning, Job analysis – Uses, methods, Job description & Job specifications. Changing Functions of HRM with example.

Unit II: Recruitment, Training and Development:

Recruitment & Selection: meaning and importance, sources of recruitment, steps of selection process, e-recruitment, types of Interviews and tests. Orientation process -Concept, purpose, and its problems.

Training and development: Meaning and importance, Training Need Analysis, Types of training (on job and off the job), Steps in training programme, design and evaluating its effectiveness, difference between Training and Development, Management Development – Meaning and Objective

Unit III: Compensation and Performance Appraisal

Compensation: Meaning and Importance, features of sound compensation plan, Factors influencing compensation levels, wage differentials & incentives, profit sharing, gain sharing, employees' stock option plans. Employee welfare: Social security, health, retirement and other benefits.

Performance Appraisal: Concept and its importance, Steps of performance appraisal, different methods of Performance Appraisal., Factors that distort appraisal, appraisal interview, Potential appraisal and Succession Planning Career planning: Concept, career anchors, career development cycle

Job Evaluation: Concept, Process, Methods, Benefits, Job Evaluation Vs Performance Appraisal.

Unit IV: Industrial Relations:

Meaning & features Industrial Relations, Industrial Disputes - Causes and Settlement of Industrial Disputes. Grievance: - concepts, causes & grievance redressal machinery, Industrial Discipline: -concept, aspect of discipline & disciplinary procedure, Trade Union – Its role & functions. Collective bargaining- concept, types, process, problems, essentials of effective collective bargaining. Workers Participation in Management – concept and objectives.

Suggested Reading:

1. V.S.P. Rao: Human Resource Management, Excel Books.
2. Human Resource and Personnel Management - K. Aswathappa - Tata McGraw Hill Publishing Co. Ltd.
3. Personnel & Human Resource Management - P. Subba Rao - Himalaya Publishing House.
4. Human Resource Management – Biswajeet Pattanayek; Prentice Hall of India, New Delhi.
5. Human Resource Management - CB Gupta
6. Human Resource Management, Text and Cases – Joshi and Gupta.

BBACC11: Fundamentals of Business Analytics

Credits 06

BBACC11T: Fundamentals of Business Analytics

Full Marks: 75

Course contents:

Unit-I: Concept of analytics, Types of analytics, Role of analytics in business – Marketing analytics, HR analytics, Finance analytics, Operation analytics; Analytics for customer Segmenting and Targeting; Customer Life-time Value analysis; Demand Forecasting Methods – the Moving Average Method.

Unit-II: Basics of Data Warehousing and Mining – Types of Data Sources, Data Collection and Preparation, Data Summarization Methods; Introduction to Machine Learning and AI.

Unit-III: Web analytics – SEO, Social Media analysis, Web Content Mining, Social Networking analysis, Internet Security.

Unit-IV: Introduction to Advanced Excel; Using Pivot table to summarize data; h-lookup; v-lookup.

Unit-V: Basic Business Mathematics and Statistics – Slope and Line equations; Probability and Probability Distribution; Commercial Arithmetic; Measures of Central Tendency; Measures of Dispersion and Skewness.

Suggested Reading:

1. Data Mining Concepts and Techniques, Morgan Kaufman Publications, 3rd ed., 2001.
2. Data Mining for Business Intelligence, GalitSchmueli, Patel & Bruce, Concepts, Techniques and Applications, Wiley publication, 2010.
3. Data Science for Business – what you need to know about data mining and data analytic thinking, Provost & Fawcett, O’ Reilly Media Publication, 2013.
4. Marketing Analytics – data driven techniques with Microsoft Excel, Winston, Wiley Publication, 2010.

BBACC12: Business Law

Credits 06

BBACC12T: Business Law

Full Marks: 75

Course Contents:

Unit-I: Law of Consumer Protection: Central and State Councils, District Forum, Complaints, Penalties.

Unit-II: Law of Partnership: Definition, kinds of partners, Registration, Rights, Duties, and Liabilities of Partners, Dissolution of Partnership firm.

Unit-III: Information Technology Act, 2000: Digital Signature. Electronic Governance, Secure electronic records and secure Digital signature, Duties of Subscribers, Offences and penalties.

Unit-IV: Other Laws: Patent Mark, Copyright (concept and Applicability), RTI – Meaning, Eligibility, Process of filing RTI.

Credits 02

Full Marks: 50

No. of Classes: 30 Hours

Objectives:

- To understand the application of advanced features of MS office
- To implement the learning in real life business scenarios through case studies
- To comprehend the fundamental principles of Information Systems
- To understand application of Information Systems in various functional areas

Course Contents:

Unit I: Advanced MS Excel: Adjusting margins(1L);Understanding absolute, relative and mixed referencing in formulas, referencing cells in other worksheets and workbooks(3L); working with inbuilt function categories like mathematical, statistical, text, lookup, information and logical functions(4L);use of Pivot Tables(2L); producing a report with pivot tables(3L); Case studies (2L).

Unit II: Advanced MS Word: Working with paragraph formatting techniques using tabs, alignment, spacing, bullets and numbering and creating borders(4L);Setting page margins, orientation, headers and footers(3L);Spell check(1L);Checking grammar and style(3L);Adding hyperlinks(1L).

Unit III: Advanced MS PowerPoint: Inserting video, audio, tables and charts(3L); adding hyperlinks(1L); Purpose of Slide Master(3L); advanced animation and transition for creating visually appealing slides(3L); working with icons and customizing it(2L).

Unit IV: Information Systems for Business: Objective, Characteristics and Applications of Management Information System (MIS) (3L);Overview of Systems Development Life Cycle (SDLC) (2L);Decision Support Systems (3L);Overview of Customer Relationship Management (CRM) (3L);Benefits and Challenges of ERP (2L); Trends in ERP (1L); Overview of Supply Chain Management (SCM) (3L);Trends in SCM (1L); Case studies (3L).

Suggested Readings:

1. Leon, A., Leon, M., Introduction to Computers (1st Edition), Vikas Publishing
2. Ram, B., Computer Fundamentals: Architecture and Organization, New Age International
3. script Demics, Learn to Master Microsoft Office 2016/365: 4 Color Book, Staredu Solutions India
4. Laudon, J.P., Laudon, K.C., Management Information Systems (16th Edition), Pearson
5. Ramirez, A., Excel Formulas and Functions 2020: The step-by-step Excel Guide with Examples on How to Create Powerful Formulas, independently published
6. Singh, I., Learn to use computer, MS Word, PowerPoint and Excel (1st Edition), independently published

7. Behl, R., O'Brien, J.A., Marakas, G.M., Management Information Systems (11th Edition), McGraw Hill
8. Stair, R.M., Reynolds, G., Principles of Information Systems (13th Edition), Cengage Learning

Generic Electives (GE)

Generic Electives (GE) - 01

Credits 06 (Full Marks: 75)

BBAGE1T: Mathematics for Business Decisions

Credits 06

BBAGE1T: Mathematics for Business Decisions

Course contents:

Unit 1: The Number system: Positive & Negative Integers, Fractions, Rational and Irrational Numbers, Real Numbers & problems based on Real Numbers; **Basic Algebra:** Equations involving single and multiple variables of linear and non-linear type, solving simultaneous equations; **Surds and Indices**, their properties and problems based on surds and indices; **Logarithms** – their properties and problems involving logarithmic operations; **Set Theory** – concept of sets, subsets, supersets, universal and null sets, their operations, Venn Diagrams, application of Set theory to solve problems.

Unit II: Functions: Definitions and types of functions (polynomial, exponential, logarithmic, rational), Increasing and decreasing functions; **Quadratic Functions** and Theory of Quadratic Equations, solution of quadratic equations ($ax^2+bx+c=0$); Roots of a quadratic equation and relation between the roots; Forming quadratic equation when roots of a quadratic equation are known.

Unit III: Introduction to Matrices & Determinants: Types of Matrices, Matrix Algebra, Determinants, Inverse of a matrix using Adjoint Method, Solving Homogeneous System of Linear Equations using Matrices and Determinant operations, Applications of Matrices to Business; **Permutations and Combinations** - fundamental principle of counting. Introduction to Permutations and combinations, Permutation of n dissimilar objects taken r at a time (with or without repetition), Restricted permutations and circular permutations. Combination of r objects taken from n objects at a time, Applications in business.

Unit IV: Simple & Compound Interest – present value and future value, Annuity, problems based on simple & compound interest; **Profit & Loss** – concept and problems based on profit & loss, concept of discount and applications; **Time, Speed & Distance** – concept and problems based on time, speed & distance.

Unit V: Differentiation & Integration: Differentiation of simple algebraic functions, Maximization & minimization of a function, application in business; Integration of simple algebraic functions, Definite integrals and their applications in business.

Suggested Readings:

1. Business Mathematics: Qazi Zameeruddin, Vijay K Khanna, S K Bhambri, Vikas Publication
2. Business Mathematics: S P Rajgopalan, R Sattanathan, TMH
3. Business Mathematics: Rangaraj G., Mallieswari R. & Rema V. CENGAGE Learning Pvt. Ltd.
4. BBA Mathematics (Vol – I); U.N. Dhur & Sons Pvt. Ltd.
5. Advanced Business Mathematics: Ranajit Dhar, Dishari Prakashani

Generic Electives (GE) - 02

Credits 06 (Full Marks: 75)

BBAGE2T: Computer Fundamentals and Applications

Credits 04

The aim of the course is to develop an understanding of the basic concepts and terminologies related to the hardware and software of Computer systems.

Learning Objectives:

- To understand different types of Operating and Application Software used in Management practices
- Understand the basics of Computer Networks and the Internet
- To understand database management system, office automation interactive multimedia

Course Contents

UNIT I: Basic Computer Concepts- Different generations of computer; Modern taxonomy of computers; Types of Computer Systems; Computer Peripherals: Input, Output and Storage Technologies; Central Processing Unit & Computer Memory; Number System.

UNIT II: Computer Software- Meaning of software; broad classification of software- system software and application software; Basic idea of an Operating System; OS as a resource manager –memory management, input/output management, secondary storage management, processor management, program management and booting, network management; Brief introduction to different types of operating systems; System development tools, Utilities, Application packages, User-written programs.

UNIT III: Computer Networks & Internet- Basic concepts of computer networks; local area networks and wide area networks; switches, hubs, routers, idea of distributed systems; Internet, Intranet and Extranet; Email, Protocols (FTP, SMTP, HTTP, HTTPS, etc.); World Wide Web & Terminologies used (URL, HTML, etc.); Firewall & Internet Security.

UNIT IV: Computer Applications- Database Management System; Essential features of computer systems and structures required for office automation; Communications & control systems; Data acquisition; Interactive multimedia.

Suggested Readings:

1. Morris, M.M., Computer System Architecture (3rd Edition), Pearson
2. Tanenbaum., Structured Computer Organization, Pearson

3. Jain, H.C., Taxmann's Computer Applications in Business, Taxmann Publications
4. Comer, D.E., Computer Networks and Internets, Pearson
5. Sinha, P., Sinha, P.K., Computer Fundamentals: Concepts, Systems & Applications (8th Edition), BPB Publications
6. Goel, A., Computer Fundamentals, Pearson
7. Laudon, J.P., Laudon, K.C., Management Information Systems (16th Edition), Pearson
8. Ram, B., Computer Fundamentals: Architecture and Organization, New Age International

BBAGE2P: Computer Fundamentals and Applications (Practical)

Credits 02

Learning Objectives:

- To understand and get practical exposure to MS Office
- To understand the application of MS Office in business scenarios

Course Contents

UNIT I: Microsoft Word- Functionalities in the Microsoft Word software; Creation of a new document and editing; Editing an existing document; Saving and printing a file; Use of the different tools; Handling tables and images in MS Word, Printing an MS Word Document.

UNIT II: Microsoft Access- Creating New and Opening Existing Databases; Creating a database using a wizard and without using a wizard; Tables –Introduction and advanced features; Retrieving data using SQL query; Record manipulation using Forms and Reports.

UNIT III: Microsoft Excel- Creating a new spreadsheet document and editing an existing document; Mathematical calculations (SUM, AVG, MAX, MIN, etc.) using MS Excel; Reference Operators, Functions & Formulae; Sorting & Filtering; Creating a column/ bar chart; Changing the size and position of a chart; Data validation.

UNIT IV: Microsoft PowerPoint- Functionalities of a PowerPoint presentation; Creating and inserting a new slide; Creating a title slide and other slide layouts ;Applying a design template; Using a two-column text; Applying basic transition and animation; Running the slide show, Printing the slides.

Suggested Readings:

1. Leon, A., Leon, M., Introduction to Computers (1st Edition), Vikas Publishing
2. Ram, B., Computer Fundamentals: Architecture and Organization, New Age International
3. script Demics, Learn to Master Microsoft Office 2016/365: 4 Color Book, Staredu Solutions India
4. Laudon, J.P., Laudon, K.C., Management Information Systems (16th Edition), Pearson
5. Ramirez, A., Excel Formulas and Functions 2020: The step-by-step Excel Guide with Examples on How to Create Powerful Formulas, independently published
6. Singh, I., Learn to use computer, MS Word, PowerPoint and Excel (1st Edition), independently published

BBAGE3T: Business Ethics and Corporate Social Responsibility

Credits 06

Course Contents:

Unit I: Introduction to Business Ethics, Concept of business ethics – meaning, Importance and factors influencing business ethics, Sources of Ethics, Concept of Corporate Ethics, code of Ethics, Guidelines for developing code of ethics, Ethics Management Programs, Ethics Committee.

Unit II: Indian Ethical Practices and Corporate Governance, Ethics in Marketing and Advertising, Human Resources Management, Finance and Accounting, Production, Information Technology, Copyrights and Patents, Corporate Governance: Concept, Importance & Evolution, Principles of Corporate Governance, Regulatory Framework of Corporate Governance in India, Role of auditors in enhancing corporate governance, duties and responsibilities of auditors, corporate governance and internal auditors, Whistle blowing, Kinds of whistle blowing and its need, Protection of Stake Holders, Failure of Corporate Governance and its consequences

Unit III: Introduction to Corporate Social Responsibility, Concept, Scope & Relevance and Importance of CSR in Contemporary Society, Models for Implementation of CSR, Drivers of CSR, CSR and Indian Corporations- Legal Provisions and Specification on CSR, Future of CSR in India, Role of NGO's and International Agencies in CSR, Integrating CSR into Business

Unit IV: Case Analyses of particular cases will constitute most of the last phase of the course. A study and evaluation of numerous critical moral issues and/or issue contexts arising in the business world today, such as the true purpose of capitalistic business, whistle blowing, social media in the workplace, discrimination against women and the poor, advertising to children, sweatshops, etc., with a special emphasis on moral issues arising in the global workplace.

Suggested Readings:

1. Banerjee, R. P., Ethics in Business and Management Concepts, Himalaya Publishing House
2. Mathur, U.C., Corporate Governance and Business Ethics: Text and Cases. New Delhi: Macmillan Publishers India Ltd, 2005. Kapur, Sashi: Human resource Development and Training in Practice, Beacon Books.
3. Naagarazan, R. S., D, A Textbook on Professional Ethics and Human Values, New Ace International Publishers
4. Institute of Directors, A Handbook on CORPORATE SOCIAL RESPONSIBILITY, A Condensed & Perfect Guide for Corporate Directors & Senior Executive

BBAGE4T: Entrepreneurship Development

Credits 04

The goal of this course is to inspire students and help them imbibe an entrepreneurial mind-set.

Learning Objectives

- An introduction to the basic concepts of entrepreneurships
- Introduction to the entrepreneurial process of creating new businesses, role of Creativity and innovation in Entrepreneurship
- Conversion of business ideas by drafting a business plan and carefully evaluate the role of various
- Institutional Support to Entrepreneurships.

Course Contents

Unit-I: Introduction to Entrepreneurship:

Meaning and concept of entrepreneurship, Entrepreneurial attributes and characteristics; Role of Entrepreneurship in Socio Economic Development, Classification and Types of Entrepreneurs, Entrepreneurial decision-making process, Entrepreneur, Entrepreneur and Manager - a Comparison, Forms of Business Ownership: Sole Proprietorship, Partnership, Company, Cooperative Society. Inspiring Stories of Five (5) Entrepreneurs in Indian and Global context.

Unit-II: Creativity, Innovation and Business Ideas:

Stimulating Creativity; Organizational actions that enhance/hinder creativity, Lateral thinking, Sources of Innovation in Business; Managing Organizations for Innovation and Positive Creativity, Creativity, Innovation & Entrepreneurship: The Linkage, Idea Generation, Importance of Ideation, Methods of Idea generation, turning idea into Business Possibilities, identifying opportunities and Evaluation; Strategic Planning for Business, Business Strategies and Scaling up.

Unit III: Social Entrepreneurship, women Entrepreneurship, Family Business and Ethics:

Introduction to Social Entrepreneurship; Characteristics and Role of Social Entrepreneurs; Innovation and Entrepreneurship in a Social Context. Women Entrepreneurs-Meaning and Concept; motivating factors which influence a woman entrepreneur, Role of Woman Entrepreneurs in Society: Factors responsible for increasing the level of women entrepreneurship in India. Five (5) stories of Successful Women Entrepreneurs in Indian and Global context. Family Business: Concept, Structure and Kind of Family Firms, Conflict and conflict Resolution in Family Firms, Women in family firms: Role and Challenges, Ethics and Social responsibility of Entrepreneurs.

BBAGE4P: Entrepreneurship Development (Business Plan)

Credits 02

Formulating Business Plan (Practical):

Nature and scope of Business plan, format of a Business Plan, Market Analysis. Marketing, financial and the organizational plan. SWOT Analysis. Meaning, role and Concepts of small business, self-

employment, entrepreneurship and start – up. Financing the business Plan- Angel investors, venture capitalists, seed financing, equity financing, Loan syndication, Consortium finance, role played by commercial banks, appraisal of loan applications by financial institutions. Institutional support to Entrepreneurship. Role of MSME in Entrepreneurship Development.

Suggested Reading:

1. Burns, P. (2001). Entrepreneurship and small business. New Jersey: Palgrave.
2. Hisrich, R.D., Peters, M.P., Shephard, Dean A., Entrepreneurship, McGraw hill
3. Drucker, P. F. (2006). Innovation and entrepreneurship: Practice and principles. USA: Elsevier.
4. Gersick, K. E., Davis, J. A., Hampton, M. M., &Lansberg, I. (1997)
5. Holt, D.H., Entrepreneurship – New Value Creation, Pearson
6. Nicholls, A, (Ed).2006 Social Entrepreneurship new models of sustainable change. Oxford University press
